TO 3600 MAIL ROOM

PETITION TO WITHDRAW HOLDING OF ABANDONMENT  
— OFFICE ACTION NOT RECEIVED

NOTE: The Notice of October 25, 1993, 1156 O.G. 53, states (in part): "In order to minimize costs and burdens to the practitioner and the Office when an application has become abandoned due to a failure to receive an Office action, the Office is modifying the showing required to make a petition to withdraw the holding of abandonment grantable. The showing required to establish the failure to receive an Office action must consist of a statement from the practitioner stating that the Office action was not received by the practitioner and attesting to the fact that a search of the file jacket and docket records indicates that the Office action was not received. A copy of the docket record where the non-received Office action would have been entered had it been received and docketed must be attached to and referenced in practitioner's statement."

1. I hereby petition to withdraw the holding of abandonment in this case, on the basis that the Office Action forming the basis of the abandonment was not received.

2. I hereby state:

- (a) The Office Actions indicated, as mailed on 11/30/98 <sup>and 09/13/99</sup> (Date), <sup>were</sup> not received.

EXHIBIT A  
STATEMENT OF JOHN W. KEPLER III

A Continuation Patent Application ("*Application*") was filed on September 29, 1998 and the return postcard was received in our office on October 9, 1998. A docket entry stating "09/29/98 - Continuation Application filed with PTO" was added to the docket entry ("*Exhibit C*") for U.S. Letters Patent No. 5,813,261 ("*Parent*").

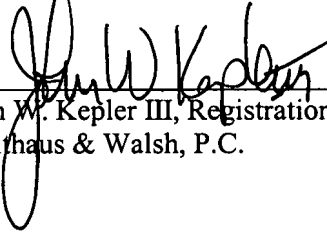

Yesterday, June 14, 2001, the applicant called and asked about this pending patent application. The United States Patent and Trademark Office ("*PTO*") PAIR system ("*PAIR*") was checked ("*Exhibit D*") and, for the first time, we became aware of the abandoned status of the Application. We contacted the applicant and discussed the abandonment.

According to Exhibit D, two Office Actions were mailed, on November 23, 1998 and the other on September 13, 1999. Our PTO Mail Log ("*Exhibit E*") shows that neither Office Action was received by our office. Our conclusion is based upon the system we use to handle the mail. All mail is opened by Sherry Roussin and the PTO mail log is maintained by Sherry Roussin. We checked the Mail Log for the two (2) weeks prior to and two (2) weeks after both the Office Action mailing dates of November 30, 1998 and September 13, 1999. The Office Actions mailed on 11/23/1998 and 09/13/1999 are not in the PTO Mail Log.

We checked the Correspondence Address in the file of the Parent at the time the Application was filed based upon the PTO records. In the Parent, a Correspondence Address Change was entered as of September 8, 1997 ("*Exhibit F*"). The date of this Correspondence Address Change is prior to the filing date of the Application. The Current Correspondence Address listed on PTOL-85B is our current address. The Issue Notification and U.S. Letters Patent No. 5,813,261 were sent to our current address. Therefore, prior to the filing date of the Application, the PTO had the correct Correspondence Address in its records.

If the Office Actions had been mailed to an incorrect correspondence address, then the mail would have been determined undeliverable and returned to the U.S. Patent and Trademark Office within ten (10) days by the U.S. Postal Service. If mail is returned to the U.S. Patent and Trademark Office, an Examiner should make a reasonable effort to find the current correspondence address of Applicant or Applicant's Representative (MPEP 707.13). We were never contacted by an Examiner who could have located the correct Correspondence Address in the file of the Parent. Finally, the last page of the Transmittal Letter accompanying the Application ("*Exhibit G*") shows the correct correspondence address.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

Application No. 09/162,562  
Filed: September 29, 1998  
For: KEYLESS DEADBOLT LOCK  
ENGAGING DEVICE

DECISION ON PETITION  
TO WITHDRAW THE  
HOLDING OF ABANDONMENT

This is in reply to applicant's petition to withdraw the holding of abandonment filed in the United States Patent and Trademark Office (USPTO) on June 18, 2001. There is no fee for this petition.

The petition is **DISMISSED**.

A review of the file record indicates that the application was held abandoned for failure to timely respond to the Office action dated November 30, 1998.

The applicant requests that the abandonment be withdrawn on the grounds that the applicant never received the Office action due to an error by the USPTO in mailing the Office action to an improper mailing address. Applicant asserts that a change of address was submitted and entered into the parent application and that correspondence mailed from USPTO was previously sent to the correct mailing address.

A review of the file reveals that the correspondence address listed in the original declaration of this application (a copy of that originally filed in parent application 08/742,133) was at 721 Emerson. This was the correspondence address of record. Although a change of address has been updated in the parent application, it is not the responsibility of USPTO to ensure that the address is updated in all subsequent applications. Because the applicant did not follow through and submit the address change for application 09/162,562, prior to the mailing of the Office action dated November 30, 1998, the Office action was mailed to the correct address of record. While it is customary for the USPTO to attempt to locate the correct mailing address of a correspondence returned as undeliverable, the failure on the Office to successfully do so does not eliminate applicant's responsibility to timely file a change of correspondence address.

Given that the applicant failed to change the correspondence address it is not surprising that the applicant failed to receive the Office action. Indeed it is currently in the file; returned as undeliverable. While MPEP 711.03(c) does give an applicant the ability to petition to show that a communication from the Patent Office was not received, this is predicated on the fact that applicant was at the correspondence address to receive the communication. MPEP 711.03(c) also requires an applicant to show that "due care was taken to adhere to the requirement for prompt notification in each concerned application for the change of address". Clearly applicant was at a new address since at least late 1998. Since applicant was apparently not at the

address of record, and the Office action was correctly mailed to the address of record, the procedure outlined in 1156 OG 53 is not available to the applicant and the alleged showing of non-receipt of the Notice of Allowance is not persuasive to withdraw the holding of abandonment in this application.

It is noted that there remains no change of address in this application. This decision will be mailed to the address of the attorney of record as listed on the petition but the official correspondence address of record will remain as listed on the declaration as filed.

The unnecessary \$130.00 petition fee for the above petition will be refunded to the applicant under separate cover.

Applicant may wish to consider filing a petition to revive under 37 CFR 1.137(a) (unavoidable delay) or 37 CFR 1.137(b) (unintentional delay) as discussed below.

I. Unavoidable Delay.

A grantable petition to revive an abandoned application under 37 CFR 1.137(a) must be accompanied by: (1) the required reply (unless previously filed), which may be met by the filing of a continuing application in a nonprovisional application abandoned for failure to prosecute; (2) the petition fee required by 37 CFR 1.17(l); and (3) an adequate showing to the satisfaction of the Commissioner that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition pursuant to 37 CFR 1.137(a) was unavoidable.

The showing requirement can be met by submission of statements of fact establishing that the delay in filing the reply was unavoidable. This includes a satisfactory showing that the cause of the delay resulting in failure to reply in a timely fashion to the Office action was unavoidable. Diligence during the time period between abandonment and filing of the petition to revive must also be shown.

As an alternative to filing a petition for unavoidable abandonment, a petition for revival of an application abandoned unintentionally under 37 CFR 1.137(b) might be appropriate.

II. Unintentional Delay.

A grantable petition to revive an abandoned application under 37 CFR 1.137(b) must be accompanied by: (1) the required reply (unless previously filed), which may be met by the filing of a continuing application in a nonprovisional application abandoned for failure to prosecute; (2) the petition fee required by 37 CFR 1.17(m); and (3) a statement that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition pursuant to 37 CFR 1.137(b) was unintentional.

The petition fee required by law for filing a petition under unavoidable standard is \$110. The fee for a petition under the unintentional standard is \$1,240. If applicant has, or can qualify as a "small entity" and does so prior to or together with the payment of the fee, the fee will be one-half of the amount indicated.

If not previously filed, the reply to the outstanding Office action must accompany the petition to revive.

The required items should be promptly submitted under a cover letter entitled "Petition to Revive".
